PLACEMENT TRAINING FEEDBACK

Name : Arun . P
 Branch : Civil
 Year : IIIrd - Year.
 Section : -
 Name of the company trained : EDIFICE
 Duration : 8-5-2023 to 25-5-2023.
 Training on : Sk91 development.

Rate your experience about the training?

a. Very good b. Good c. Fair d. Poor e. Very poor

How do you think about the relevance of training with job interview?

a. Very good b. Good c. Fair d. Poor e. Very poor

Have you gained technical skills (if applicable)?

a. Very good b. Good c. Fair d. Poor e. Very poor

Have you gained aptitude problem solving and logical reasoning ability (if applicable)?

a. Very good b. Good c. Fair d. Poor e. Very poor

Overall Rating for the trainer

a. Very good b. Good c. Fair d. Poor e. Very poor

Overall Rating for the training program

a. Very good b. Good c. Fair d. Poor e. Very poor

General Remarks / Suggestions about the training

Very useful, knowledge gaining

Date: 25.5.23.

Work Attributes

1 | Introduction

About the Report

This report provides a detailed analysis of the candidate's performance on different assessments. The tests for this job role were decided based on job analysis, O*Net taxonomy mapping and/or criterion validity studies. The candidate's responses to these tests help construct a profile that reflects her/his likely performance level and achievement potential in the job role

This report has the following sections:

The **Summary** section provides an overall snapshot of the candidate's performance. It includes a graphical representation of the test scores and the subsection scores.

The **Insights** section provides detailed feedback on the candidate's performance in each of the tests. The descriptive feedback includes the competency definitions, the topics covered in the test, and a note on the level of the candidate's performance.

The **Interview Questions** section provides a few probing questions on those competencies where the candidate's performance has been low. The interviewer can use these as a reference in case s/he wishes to assess the candidate on any of these competencies during the interview process.

The **Proctoring** section captures the output of the different proctoring features used during the test.

The **Learning Resources** section provides online and offline resources to improve the candidate's knowledge, abilities, and skills in the different areas on which s/he was evaluated.

Score Interpretation

All the test scores are on a scale of 0-100. All the tests except personality and behavioural evaluation provide absolute scores. The personality and behavioural tests provide a norm-referenced score and hence, are percentile scores. Throughout the report, the colour codes used are as follows:

- Scores between 67 and 100
- Scores between 33 and 67
- Scores between 0 and 33

2 | Insights

English Comprehension

 49 / 100

This test measures the candidate's vocabulary, grammar and reading comprehension skills.

The candidate is able to construct short sentences and understand simple text. The ability to read and comprehend is important for most jobs. However, it is of utmost importance for jobs that involve research, content development, editing, teaching, etc.

Quantitative Ability (Advanced)

 83 / 100

This test measures the candidate's ability to solve problems on basic arithmetic operations, probability, permutations and combinations, and other advanced concepts.

It is commendable that the candidate is able to understand and solve complex arithmetic problems. He is able to solve basic problems of probability, logarithms, permutations, and combinations. This skill will help him in jobs where one needs to work with statistical data and make probabilistic predictions.

Logical Ability

 62 / 100

Inductive Reasoning

 67 / 100

This competency measures the candidate's ability to synthesize information and derive conclusions.

It is commendable that the candidate has excellent inductive reasoning skills. He is able to apply specific observations to generalize situations and also formulate new generic rules from variable data.

Deductive Reasoning

 63 / 100

This competency measures the candidate's ability to synthesize information and derive conclusions.

It is commendable that the candidate has excellent inductive reasoning skills. He is able to apply specific observations to generalize situations and also formulate new generic rules from variable data.

Abductive Reasoning

 57 / 100

This competency measures the candidate's ability to reach a possible conclusion by forming and testing the hypothesis using the known information.

The candidate is able to use the available information and formulate simple hypothesis for further testing. But he may not be able to reach expected conclusions with more complex information.

Personality

Competencies

Extraversion

Extraversion refers to a person's inclination to prefer social interaction over spending time alone. Individuals with high levels of extraversion are perceived to be outgoing, warm and socially confident.

- The candidate feels comfortable spending time by himself.
- He prefers spending time alone rather than in social gatherings.
- He may not enjoy activities that involve thrill and excitement.
- He is thoughtful, introspective and refrains from impulsive remarks/actions. He often keeps his opinions and ideas to himself.
- He prefers to work on individual projects rather than group projects.
- He is more likely to prefer jobs that require minimal interaction with people.

Conscientiousness

Conscientiousness is the tendency to be organized, hard working and responsible in one's approach to her/his work. Individuals with high levels of this personality trait are more likely to be ambitious and tend to be goal-oriented and focused.

- The candidate is likely to value order and self-discipline and tends to pursue ambitious endeavours.
- He believes in the importance of structure and is very well-organized.
- He is likely to carefully review facts before arriving at conclusions or making decisions based on them.
- He adheres to rules strictly and carefully considers the situation before making decisions.
- He tends to have a high level of self confidence and does not doubt his abilities.
- The candidate generally sets and works toward goals, tries to exceed expectations and is likely to excel in most jobs, especially those which require a careful or meticulous approach.

Agreeableness

Agreeableness refers to an individual's tendency to be cooperative with others and it defines her/his approach to interpersonal relationships. People with high levels of this personality trait tend to be more considerate of people around them and are more likely to work effectively in a team.

- The candidate may be flexible regarding his opinions and be willing to accommodate the needs of others.
- He may be generally considerate of the needs of others yet may, at times, overlook social norms to achieve personal success.
- He may be selective about the people he chooses to trust.
- He is caring and is likely to experience sympathy for a friend in distress.

- He is likely to give credit to others but also tends to be open with his friends about personal achievements.
- This candidate is more inclined to strike a compromise in tough situations and may be suitable for jobs that demand managing expectations among different stakeholders.

Openness to Experience

Openness to experience refers to a person's inclination to explore beyond conventional boundaries in different aspects of life. Individuals with high levels of this personality trait tend to be more curious, creative and innovative in nature.

- The candidate may not be very open to new experiences lying outside his comfort zone and tends to prefer routine over variety.
- He may be pragmatic and is likely to be conventional in his outlook and actions and may not pursue an experimental approach to problem-solving.
- He may not have an appreciation for art.
- He may not like to express his emotions and feelings to others.
- He tends to demonstrate concrete thinking with a focus on practical solutions, as opposed to abstract ideas.
- The candidate's personality is more suited to job roles that require logical and rational thinking.

Emotional Stability

Emotional stability refers to the ability to withstand stress, handle adversity, and remain calm and composed when working through challenging situations. People with high levels of this personality trait tend to be more in control of their emotions and are likely to perform consistently despite difficult or unfavourable conditions.

- The candidate is likely to be sensitive, emotional and may tend to worry about situations.
- He may react to everyday events with greater intensity and may become emotional.
- He may hesitate to face certain stressful situations and might feel anxious about his ability to handle them.
- He may find it hard to elicit self restraint and may tend to make impulsive decisions.
- The candidate's personality is more suited for less stressful jobs.

Polychronicity

Polychronicity refers to a person's inclination to multitask. It is the extent to which the person prefers to engage in more than one task at a time and believes that such an approach is highly productive. While this trait describes the personality disposition of a person to multitask, it does not gauge their ability to do so successfully.

- The candidate neither has a strong preference nor dislike to perform multiple tasks simultaneously.
- He is open to both options - pursuing multiple tasks at the same time or working on a single project at a time.

- Whether or not he will succeed in a polychronous environment depends largely on his ability to do so.

Automotive Engineering

 30 / 100

This test measures the knowledge of auto engine classification, engine fuel system, auto-vehicle technology, maintenance, inspection and troubleshooting.

- The candidate has very basic knowledge of the technical terms and understands elementary concepts.
- He needs to put in effort to improve his conceptual knowledge in automotive engineering. This will also build a strong foundation for him to learn more advanced topics of the subject.

Mechanical Engineering

 75 / 100

This test measures the conceptual knowledge of fluid and machine mechanics, thermodynamics, IC engines and manufacturing science.

- The candidate has a sound knowledge of mechanical engineering and has a good understanding of the concepts, principles and theories.
- He is able to understand the practical applications of mechanical engineering and analyze real-world problems. The candidate should focus on mastering niche topics and stay abreast with the latest developments.

3 | Interview Questions

Personality

Competencies

 Extraversion ●

 You are at a party where you do not know anyone. What should you do?

 In your opinion, do you consider yourself as a better talker or better listener?

 Conscientiousness ●

 Describe a time in your work when you faced a difficult situation and took initiative to find a solution. What was the situation and what was your idea? What was the outcome?

 Agreeableness ●

 Describe an instance when you successfully persuaded a client, manager, peer, or subordinate to adopt your position on an important issue. What strategy or approach did you use to convince them?

 Openness to Experience ●

 Describe a time when you had to gather data to inform a critical decision. Why was the data so important? How did you gather the data? What would have been your decision if you had not had access to this extra information? What would have been the likely result?

 Tell us about a project or situation where you felt that the conventional approach would not be suitable. What was the approach you proposed/adopted?

 Emotional Stability ●

 Describe a recent project that stressed you out. Why was it stressful and how did you deal with it? Was the project ultimately successful?

 When was the last time you were upset with yourself and why?

 Polychronicity ●

You are a college student and you must complete an assignment for your professor. You are very familiar with the topic and the assignment is simple. What would be your work method in this instance? Would you watch TV and listen to music while completing it? Or would you concentrate on the assignment in silence, and then watch TV?

4 | Proctoring

Standard Proctoring

<p>IP Binding</p>	<p>Print Screen</p> <p>0</p>	<p>ID Card Face Detected</p>	<p>Browser Toggle</p> <p>1</p>	<p>IP Address</p>
<p>Geolocation Tag</p>				

AI Proctoring Information

- Print Screen:** The number of times the candidate attempted to take a screenshot of the assessment screen using the “print screen” function on their device. Note: This impacts proctoring index.
- ID Card Face Detected:** Looks at the candidate images captured during the assessment and flags anywhere different people appear to be present. Snapshots are included in the report.
- Browser Toggle:** Either the proportion of time the candidate spent focused on a tab/window other than that of assessment screen (%), or the number of times the candidate toggled to another tab/window (count). Note: This impacts proctoring index.
- IP Address:** Confirms that the candidate took the assessment from the specified IP address(s).
- Geolocation Tag:** Detects whether the candidate attempted the assessment from a location beyond the distance set by the administrator.

1 | Introduction

About the Report

This report provides a detailed analysis of the candidate's performance on different assessments. The tests for this job role were decided based on job analysis, O*Net taxonomy mapping and/or criterion validity studies. The candidate's responses to these tests help construct a profile that reflects her/his likely performance level and achievement potential in the job role

This report has the following sections:

The **Summary** section provides an overall snapshot of the candidate's performance. It includes a graphical representation of the test scores and the subsection scores.

The **Insights** section provides detailed feedback on the candidate's performance in each of the tests. The descriptive feedback includes the competency definitions, the topics covered in the test, and a note on the level of the candidate's performance.

The **Interview Questions** section provides a few probing questions on those competencies where the candidate's performance has been low. The interviewer can use these as a reference in case s/he wishes to assess the candidate on any of these competencies during the interview process.

The **Proctoring** section captures the output of the different proctoring features used during the test.

The **Learning Resources** section provides online and offline resources to improve the candidate's knowledge, abilities, and skills in the different areas on which s/he was evaluated.

Score Interpretation

All the test scores are on a scale of 0-100. All the tests except personality and behavioural evaluation provide absolute scores. The personality and behavioural tests provide a norm-referenced score and hence, are percentile scores. Throughout the report, the colour codes used are as follows:

- Scores between 67 and 100
- Scores between 33 and 67
- Scores between 0 and 33

2 | Insights

English Comprehension

 61 / 100

This test measures the candidate's vocabulary, grammar and reading comprehension skills.

The candidate has a good understanding of commonly used grammatical constructs. He is able to read and understand articles, reports and letters/emails related to his day-to-day work. The ability to read, understand and interpret business-related documents is essential in most jobs, especially the ones that involve research, technical reading and content writing.

Quantitative Ability (Advanced)

 67 / 100

This test measures the candidate's ability to solve problems on basic arithmetic operations, probability, permutations and combinations, and other advanced concepts.

The candidate has a strong hold on basic arithmetic and concepts of algebra. He is able to convert real-world problems into equations and solve them.

Logical Ability

 53 / 100

Inductive Reasoning

 50 / 100

This competency measures the candidate's ability to synthesize information and derive conclusions.

The candidate is able to work out simple rules based on specific evidence or information. This skill is required in high end analytics jobs where one is required to infer patterns based on predefined rules from different sets of data.

Deductive Reasoning

 59 / 100

This competency measures the candidate's ability to synthesize information and derive conclusions.

It is good that the candidate is able to draw valid inferences based on simple rules and instructions. The problems that one faces at work are generally complex and involve several factors. Hence it is important to take into account all the relevant inputs and then make the final decision.

Abductive Reasoning

 51 / 100

This competency measures the candidate's ability to reach a possible conclusion by forming and testing the hypothesis using the known information.

The candidate is able to use the available information and formulate simple hypothesis for further testing. But he may not be able to reach expected conclusions with more complex information.

Personality

Competencies

Extraversion

Extraversion refers to a person's inclination to prefer social interaction over spending time alone. Individuals with high levels of extraversion are perceived to be outgoing, warm and socially confident.

- The candidate is comfortable socializing to a certain extent. He may prefer small gatherings in familiar environments.
- He may feel at ease interacting with his close friends but may be reserved among strangers.
- He is likely to indulge in activities involving thrill and excitement that are not too risky.
- He contemplates the consequences before expressing any opinion or taking an action.
- He is likely to take charge when the situation calls for it and is comfortable following instructions as well.
- The candidate's personality may be suitable for jobs demanding flexibility in terms of working well with a team as well as individually.

Conscientiousness

Conscientiousness is the tendency to be organized, hard working and responsible in one's approach to her/his work. Individuals with high levels of this personality trait are more likely to be ambitious and tend to be goal-oriented and focused.

- The candidate is likely to value order and self-discipline and tends to pursue ambitious endeavours.
- He believes in the importance of structure and is very well-organized.
- He is likely to carefully review facts before arriving at conclusions or making decisions based on them.
- He adheres to rules strictly and carefully considers the situation before making decisions.
- He tends to have a high level of self confidence and does not doubt his abilities.
- The candidate generally sets and works toward goals, tries to exceed expectations and is likely to excel in most jobs, especially those which require a careful or meticulous approach.

Agreeableness

Agreeableness refers to an individual's tendency to be cooperative with others and it defines her/his approach to interpersonal relationships. People with high levels of this personality trait tend to be

more considerate of people around them and are more likely to work effectively in a team.

- The candidate may come across as outspoken. He may often play the role of the devil's advocate in discussions and question others' opinions and views.
- He is not gullible and is likely to carefully examine the situation before trusting in something/someone.
- He may not be strongly affected by human suffering and may be perceived as indifferent.
- He is likely to be confident of his achievements and does not shy away from talking about them.
- He may sometimes place self-interest above the needs of those around him. He may not be willing to compromise his own views in order to accommodate the views of others.
- The candidate may be suitable for jobs that require tough objective decisions and hard negotiation.

Openness to Experience

Openness to experience refers to a person's inclination to explore beyond conventional boundaries in different aspects of life. Individuals with high levels of this personality trait tend to be more curious, creative and innovative in nature.

- The candidate may not be very open to new experiences lying outside his comfort zone and tends to prefer routine over variety.
- He may be pragmatic and is likely to be conventional in his outlook and actions and may not pursue an experimental approach to problem-solving.
- He may not have an appreciation for art.
- He may not like to express his emotions and feelings to others.
- He tends to demonstrate concrete thinking with a focus on practical solutions, as opposed to abstract ideas.
- The candidate's personality is more suited to job roles that require logical and rational thinking.

Emotional Stability

Emotional stability refers to the ability to withstand stress, handle adversity, and remain calm and composed when working through challenging situations. People with high levels of this personality trait tend to be more in control of their emotions and are likely to perform consistently despite difficult or unfavourable conditions.

- The candidate is calm and composed in nature.
- He tends to maintain composure during high pressure situations.
- He is likely to be very confident and comfortable being himself.
- He finds it easy to resist temptations and practice moderation.
- The candidate is likely to remain emotionally stable in jobs with high stress levels.

Polychronicity

Polychronicity refers to a person's inclination to multitask. It is the extent to which the person prefers to engage in more than one task at a time and believes that such an approach is highly productive. While this trait describes the personality disposition of a person to multitask, it does not gauge their ability to do so successfully.

- The candidate is likely to pursue multiple tasks simultaneously, switching between them when needed.
- He may prefer working to achieve some progress on multiple tasks simultaneously than completing one task before moving on to the next task.
- He tends to believe that multitasking is an efficient way of doing things and prefers an action-packed work life with multiple projects.

Automotive Engineering

 61 / 100

This test measures the knowledge of auto engine classification, engine fuel system, auto-vehicle technology, maintenance, inspection and troubleshooting.

- The candidate has good factual knowledge and conceptual understanding of automotive engineering.
- Having learnt the theoretical aspects of the subject he should focus on learning more advanced concepts. This is important to understand the practical applications of the subject.

Production Engineering

 59 / 100

This test measures the knowledge of production technology and analysis, metal cutting, tool design, material science and CIM.

- The candidate has good factual knowledge and conceptual understanding of production engineering.
- Having learnt the theoretical aspects of the subject he should focus on learning more advanced concepts. This is important to understand the practical applications of the subject.

Mechanical Engineering

 52 / 100

This test measures the conceptual knowledge of fluid and machine mechanics, thermodynamics, IC engines and manufacturing science.

- The candidate has good factual knowledge and conceptual understanding of mechanical engineering.
- Having learnt the theoretical aspects of the subject he should focus on learning more advanced concepts. This is important to understand the practical applications of the subject.

3 | Interview Questions

Personality

Competencies

Extraversion

Imagine a scenario where you traveled to a different country for work. In a business meeting with senior members, you used an English word whose equivalent in their language had a very different and derogatory meaning. They all looked at you in a strange way. How would you react?

Conscientiousness

Can you recall a time when you or your team made an unwise or imprudent decision based on bad or incomplete information? How did this decision affect the business?

Agreeableness

Describe an instance when you successfully persuaded a client, manager, peer, or subordinate to adopt your position on an important issue. What strategy or approach did you use to convince them?

Describe an instance when you had to convince a person of something that you yourself did not believe.

Openness to Experience

Describe a time when you had to gather data to inform a critical decision. Why was the data so important? How did you gather the data? What would have been your decision if you had not had access to this extra information? What would have been the likely result?

Tell us about a project or situation where you felt that the conventional approach would not be suitable. What was the approach you proposed/adopted?

Emotional Stability

Describe your strongest and your weakest acquaintances. How do you cope with such a wide range of personalities?

Polychronicity

You are a college student and you must complete an assignment for your professor. You are very familiar with the topic and the assignment is simple. What would be your work method in this instance? Would you watch TV and listen to music while completing it? Or would you concentrate on the assignment in silence, and then watch TV?

PLACEMENT TRAINING FEEDBACK

Name : *Yogesh*
 Branch : *ECE*
 Year : *IV*
 Section : *C*
 Name of the company trained : *Top Freshers*
 Duration : *5/12/22 - 17/12/22*
 Training on : *Java*

Rate your experience about the training?

a. Very good b. Good c. Fair d. Poor e. Very poor

How do you think about the relevance of training with job interview?

a. Very good b. Good c. Fair d. Poor e. Very poor

Have you gained technical skills (if applicable)?

a. Very good b. Good c. Fair d. Poor e. Very poor

Have you gained aptitude problem solving and logical reasoning ability (if applicable)?

a. Very good b. Good c. Fair d. Poor e. Very poor

Overall Rating for the trainer

a. Very good b. Good c. Fair d. Poor e. Very poor

Overall Rating for the training program

a. Very good b. Good c. Fair d. Poor e. Very poor

General Remarks / Suggestions about the training

..... *Good Training*

Date: *17/12/2022*

GOKUL SARAVANA PRABHU

Mechanical engineering

I am currently pursuing my Bachelor degree in Mechanical Engineering from St. Joseph's college of E area of interests are Designing, Problem Solving and Developing applications. Hence looking forward to make use of all the relevant experiences I have gained so far to kick start my career in this field by gaining more knowledge and expertise

Education

Higher secondary education

velammal bodhi campus
2019-2021
82%

Bachelor of engineering

st Joseph's college of engineering
Present
Current CGPA 8.26%

Skills

Design Software
(Solid works, Catia, Cero, AutoCAD ,Pv Elite ,Ansys)
Heat exchanger
Basic pressure vessel design
Python
Ros
Data science
IOT and embedded systems

Internship

Titan
Hosur Dec 25 -31 2021

During my internship at Titan Watch Company in Hosur, I learned about watch manufacturing processes, quality control, and supply chain management. This experience enhanced my technical skills, teamwork, and communication. It offered valuable insights into the watch industry, contributing significantly to my personal and professional growth..

Pulkit steels
Pondicherry Feb15 -22 2022

My internship at Pulkit Steel in Pondicherry provided a deep understanding of steel manufacturing processes, quality control, and safety protocols. I learned to operate machinery, conduct quality checks, and adhere to strict safety standards. This experience enriched my knowledge of the steel industry, equipping me with practical skills for future endeavors.

Projects

- Aquatic garbage cleaner boat**
To clean the garbage from the surface of sea,ocean and other water bodies to prevent pollution of water and to safeguard the creatures.
- Automatic fire fighting robot**
To extinguish the fire automatically and to ensure the safety of a place when it starts burning.by sending the robot to the caves to exhaust toxic harmful gases.
- Different in surface finishing according to cutting tools**
I learned about the changes happening in material while cutting tool . The colour difference in chip by the variation of speed and depth of cut and surface roughness , circularity
