STAFF CONFERENCE PRESENTATION

2.

1. Dr. G. Baskar received reviewer recognition certificate from Systems Microbiology and Biomanufacturing published by Springer.
2. Dr.M. Chamundeeswari has participated in oral and technical presentation in the title " Toxicity Optimization Of Green Zinc Oxide Quantum Dots In Zebrafish Using Box-Behnken Design: A Novel Approach For Safer Nanoparticle Synthesis" on 11th International Maridin Artuklu Scientific Researchers conference held on Dec13-15, Mardin, Turkiye.
3. Dr. M. Chamundeeswari has participated in oral and technical presentation in the title "

Copy of certificate Dr.G.Baskar

Formulation of Bio Brick Using Eggshell Derived Calcium Oxide Nanoparticle With Agricultural Waste - A Cost Effective And Constructive Biomass Management" on 9th Ankara International Congress On Scientific Research held on December 26-29, 2023 / Ankara, Turkiye.

- Ms.Yuwvaranni.S has presented a paper titled FORMULATION OF BIO BRICK USING EGG SHELL DERIVED CALCIUM OXIDE NANOPARTICLE WITH AGRICULTURAL WASTE - A COST EFFECTIVE AND CONSTRUCTIVE BIOMASS MANAGEMENT in 9th ANKARA INTERNATIONAL CONGRESS ON SCIENTIFIC RESEARCH held on December 26-29, 2023 / Ankara, Türkiye
- Ms.A. Anli Dino , Successfully completed the 4 credit **Online course** "Biomass Characterization" with a score of 70% from the examination held in December 2023 through SWAYAM".

Certificate

OF PARTICIPATION

THIS CERTIFICATE IS PROUDLY PRESENTED TO

Chamundeeswari. M

in oral and technical presentation recognition and appreciation of research contributions to
9th ANKARA INTERNATIONAL CONGRESS ON SCIENTIFIC RESEARCH
held on December 26-29, 2023 / Ankara, Türkiye

with the paper entitled

FORMULATION OF BIO BRICK USING EGGSHELL DERIVED CALCIUM

Secure User Recommendation using Machine Learning Techniques. In 2023 7th International Conference on I-SMAC (IoT in Social, Mobile, Analytics and Cloud) (I-SMAC) (pp. 233-240). IEEE.</p> <p>Abstract - A secure user recommendation is a significant and emerging service, which expands and enhances the recommendation service by actively recommending secure user to other users based on the trustworthiness. One primary reason for the need of a secure user recommendation system in current society is that people have too many opportunities to access other users due to the ubiquity of the internet. The existing recommendation system such as content based, collaborative filtering gives user to user recommendation based on their similar choices, activities and location preferences etc. These exiting methods have narrow scope of recommendation and are less efficient. This study proposes a new secure user recommendation system that overcomes the shortcoming of the existing system. The proposed secure user recommendation system determines the trustworthiness of user based on the various attributes like profile, interaction, intensity of relationship etc. The machine learning techniques are used for giving recommendation on various applications. To arrive at the goal of intensifying the user trustworthiness, here the focus is on building the trustworthy model that can predict the trustworthiness level of users under the multiple trust attribute conditions using machine learning techniques. To highlight the process of finding the most accurate machine learning techniques in providing the secure user recommendation, the performance metrics such as precision, recall, F1 score and accuracy of various machine learning techniques are calculated and it is also observed that a random forest technique gives higher accuracy of 93.5% than the other existing techniques.</p> <p>Keywords: Secure User Recommendation, Machine Learning, Trustworthy User</p>

IEEE activities

PIC: EVENT POSTER

Reflecting on the success of our impactful online event, "Lumina," jointly presented by IEEE PELS SJCE SB and IEEE PELS Madras Chapter, held on 08/12/2023 from 6:00 to 7:00 PM, it was a compelling exploration of solar energy's theme, aimed at advancing renewable energy systems. The event featured the esteemed Mr. Anuj Sharma, Founder & CEO of Chip Web Technologies, whose insightful contributions added significant value. Mr. Sharma's expertise provided a deep dive into the intricate landscape of solar energy, illuminating the audience with the latest developments and innovations in the field. Participants gained invaluable insights, contributing to an enhanced understanding of solar technology and its transformative impact on renewable energy systems. "Lumina" stood as a testament to our commitment to technological progress, showcasing excellence in power electronics and renewable energy.

3.

IEEE activities

PIC: EVENT POSTER

The **IEEE Solid-State Circuits Society** of St. Joseph's College of Engineering hosted a webinar titled "**MAGIC DRONES**" on December 11th, 2023, from 6 PM to 7 PM. The event featured a presentation by Mr. SHIVAM CHAUHAN, on the topic "UNMANNED AERIAL VEHICLES(UAV)." Participants included students from Department of Electrical and Electronics Engineering. Throughout the session, students exploring this paradigm shift developed a robust foundation in understanding the principles of cognitive learning. It is anticipated that this foundational knowledge will provide students with a broader perspective on the capabilities and limitations of intelligent systems. The event, conducted over Google Meet, attracted the participation of approximately 35 students. As a gesture of appreciation, participants were presented with E-certificates.

<p>4.</p>	<p style="text-align: center;">IEEE activities</p>  <p style="text-align: center;"><i>PIC: EVENT POSTER</i></p>	<p>On December 11, 2023, from 8:00 AM to 9:00 AM, St. Joseph's College of Engineering's IEEE Computational Intelligence Society hosted a seminar with the theme "Get Set-Go!". Giving definite ideas to the finalists of the Smart India Hackathon-2023 was the primary goal of this event. The Head of the Department of Information Technology, Ms.Lathaselvi, gave a welcome speech to kick off the event. Mr. Praveen V, a proud alumnus who works as a web developer at Zoho at the moment, served as the resource person. It should be mentioned that he won SIH'2022, as well. Mr. Praveen gave the students on the short list a valuable glimpse into his experience in SIH '22. We encouraged participants to ask questions, and our alumni were happy to answer them without holding back. All things considered, this event was a huge success, and the management expressed gratitude for the organising.</p>	<p style="text-align: center;">4</p>
<p>5.</p>	<p style="text-align: center;">IEEE activities</p>	<p>The IEEE Power and Energy Society at St. Joseph's College of Engineering hosted a webinar titled "NEUROBYTES" on December 14, 2023, from 11 AM to 12 PM. The event featured a presentation by Dr. R. ELAKKIYA on the topic "PARADIGM SHIFT FROM MACHINE LEARNING TO COGNITIVE LEARNING." Participants included students from the Pre-Final year of the Department of Electrical and Electronics Engineering. Throughout the session, students exploring this paradigm shift developed</p>	<p style="text-align: center;">4</p>

PIC: EVENT POSTER

a robust foundation in understanding the principles of cognitive learning. It is anticipated that this foundational knowledge will provide students with a broader perspective on the capabilities and limitations of intelligent systems. The event, conducted over Google Meet, attracted the participation of approximately 20 students. As a gesture of appreciation, participants were presented with E-certificates.

6.

IEEE activities

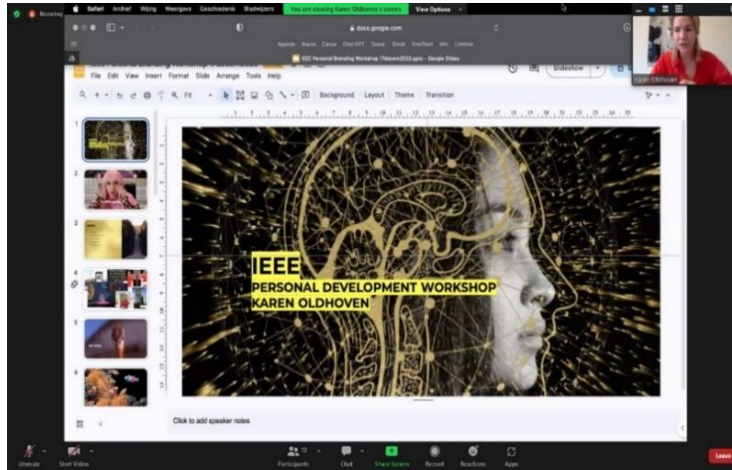

PIC: EVENT POSTER

The IEEE Power and Energy Society of St. Joseph's College of Engineering conducted a webinar, "GLITZ GLAM," on 14-12-2023. The topic of the event was "ROLE OF AI IN ENERGY AND POWER ENGINEERING: TECHNOLOGICAL TRENDS AND RESEARCH DIRECTIONS," presented by Dr. Vandana Sharma. Students from the Final year, pre-final year, and Second year of the Department of Electrical and Electronics Engineering participated. The motive of the event was to educate students about power and energy. During this webinar, students gained knowledge about technological trends and research directions in power and Energy field. Approximately 25 students took part in this event over Gmeet. The participants were rewarded with E-certificates as a token of appreciation.

7.

IEEE Activities

PIC: EVENT PHOTO

"Unleash Potential - A Webinar Session," co-hosted by IEEE POWER ELECTRONICS SOCIETY in collaboration with IEEE WOMEN IN ENGINEERING AFFINITY GROUP and in association with the IEEE Student Branch Chapter of St. Joseph's College of Engineering, scheduled for 17/12/2023 from 1:30 PM to 3:00 PM (IST). The distinguished speaker, Ms. Karen Oldhoven Head of Branding & Comms TEDxAmsterdam Women, promises to bring significant value with her expertise. As we embark on this webinar, we aim to delve into the intricacies of personal development, gaining invaluable insights that contribute to the enhancement of individual growth.

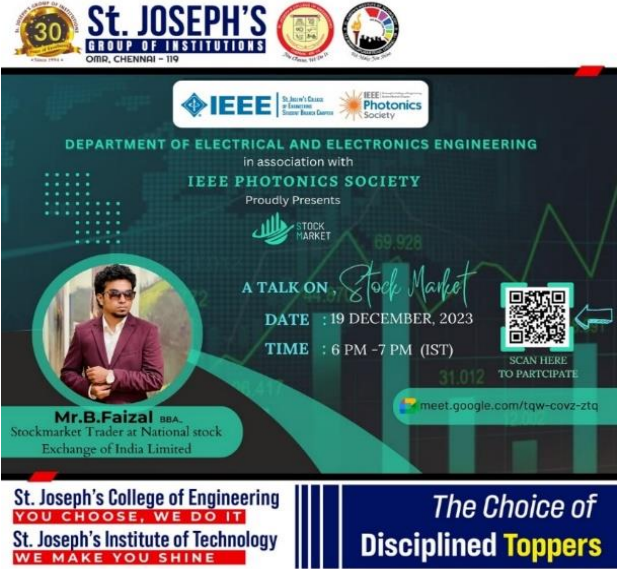

8.

IEEE Activities

PIC: EVENT PHOTO

Choppers Club in associated with IEEE SJCE SB hosted a technical event “**SPARK SPECTRA QUEST**” on **18th DECEMBER 2023**. This event began at 1:40 pm with all of our club members present. The event signalled the start of identifying the latent talents of our students. Around 30 students were participated in offline . An overall insight about the event were given to the participants. Before each round, the competition's regulations were outlined. Participants with higher scores were shortlisted for further rounds, and we finally announce the top three winners. For their exceptional contributions to the event, they received certificates of appreciation. With the energy of our pupils, the event went on.

<p>9.</p>	<p style="text-align: center;">IEEE activities</p>  <p style="text-align: center;"><i>PIC: EVENT POSTER</i></p>	<p>The Photonics Society, in collaboration with the IEEE Student Branch at St. Joseph's College of Engineering, successfully organized an enlightening event on "Stock Market Exchange" on December 19th. The distinguished speaker, Mr. B. Faizal, a seasoned stock market trader at the National Stock Exchange of India Limited, shared invaluable insights with 28 participants comprising enthusiastic student members. The event aimed to educate attendees on the fundamentals of stock market trading, providing guidance on trading techniques and highlighting crucial parameters to consider when making stock investments. Mr. Faizal's expertise contributed to a comprehensive understanding of stock market dynamics, making the event a valuable resource for students keen on exploring the world of financial markets. E-certificates were provided to all the participants.</p>	<p style="text-align: center;">4</p>
<p>10.</p>	<p style="text-align: center;">IEEE activities</p>	<p>The IEEE Power and Energy Society of St. Joseph's College of Engineering conducted a webinar, "CYBER PROTECTOR," on 20-12-2023. The topic of the event was "INTRODUCTION TO CYBERSECURITY FUNDAMENTALS: UNDERSTANDING THREATS AND VULNERABILITIES,"</p>	<p style="text-align: center;">4</p>

PIC: EVENT POSTER

presented by Dr. Doreen Robin .Students from the Final year, pre-final year, and Second year of the Department of Electrical and Electronics Engineering participated .The motive of the event was to educate students about the recent threats . During this webinar students gained a solid foundation in cybersecurity fundamentals, enabling them to understand the threats and vulnerabilities that exist in the digital landscape.. Approximately 30 students took part in this event over Gmeet . The participants were rewarded with E-certificates as a token of appreciation.

11.

IEEE activities

SOCIAL AWARENESS CLUB in Association with IEEE SJCE SB organized a technical event “EMPATHIE ENGAGEMENT” on 20th DECEMBER 2023. This exclusive event started at 9:40AM with all the members of our club. The event was started with full enthusiasm by exploring the hidden talents of the students .Around 45 students participated in offline .This event consists of two round .The rules of the event were explained before each round .Participants with higher score were shortlisted for further rounds. and finally we declare top two winners.

PIC: EVENT PHOTO

They were honoured with certificates for their outstanding contributions during the event. The event continued with the enthusiasm of our students. The program ended with a photo session.

12.

IEEE activities

IEEE St. Joseph's College of Engineering Student Branch Chapter, in collaboration with Techknots Pvt Ltd, hosted the **one-day "Wing Wrap" workshop** on December 21st, 2023, from 8:00 AM to 3:00 PM at Block 7, Smart Room. With a focus on "Exploring the World of Drone Technology and IoT," the event featured a hands-on session conducted by Mr. Nixon E, R&D EV Engineer and Founder of Techknots Academy, along with Mr. Sriram K, Director of TG Cyberlabs Private Limited. The workshop catered to 60 pre-final year students from the Department of Electrical and Electronic Engineering, offering a comprehensive exploration of drone technology and IoT applications, providing invaluable insights and practical experience in the field. E-certificates were provided to all the participants.

13.

IEEE activities

PIC: EVENT POSTER

IEEE St.joseph's College of engineering student chapter in associated with IEEE RAS SJCE SB conducted an International webinar series “ERUDITE’23” SEASON 8 on 23-12-2023. The topic of the first session was **"FUTURE TRENDS OF EAI-EXPLAINABLE ARTIFICIAL INTELLIGENCE"** presented by Dr. Nallakarupan Kailasanathan. Students from the Final year, pre-final year, and Second year of the Department of Electrical and Electronics Engineering participated. The event aims to highlight artificial intelligence as a reflection of human ingenuity, fostering awareness and inspiring exploration in the rapidly evolving field. During this webinar, students gained knowledge about future trends in Artificial Intelligence and its reflection of human ingenuity. Approximately 35 students took part in this event over Gmeet. The participants were rewarded with E-certificates as a token of appreciation.

<p>14.</p>	<p>IEEE activities</p>  <p>PIC: EVENT POSTER</p>	<p>IEEE PELS SJCE SB conducted an international webinar series “ERUDITE’23” SEASON 8 on 27-12-2023. The topic of the second session was "EQUIPMENT LIFE CYCLE" presented by Mr. Ntozeliswe B Mqenebe. Students from the Final year, pre-final year, and Second year of the Department of Electrical and Electronics Engineering participated. The event aims particularly in the context of Maintenance and Reliability. The event covers various aspects such as maintenance procedures, predictive maintenance programs, and the optimization of asset availability and utilization. The webinar likely focuses on enhancing participants' understanding of maintaining equipment efficiently throughout its life cycle, ensuring reliability, and optimizing performance. Approximately 35 students took part in this event over Gmeet. The participants were rewarded with E-certificates as a token of appreciation.</p>	<p>4</p>
<p>15.</p>	<p>IEEE activities</p>	<p>IEEE St. Joseph’s College of Engineering student chapter in association with IEEE PES SJCE SB conducted an international webinar series “ERUDITE’23” SEASON 8 on 28-12-2023. The topic of the third session was on "EMERGING TRENDS IN WIND ENERGY RESEARCH" presented by Dr.Karunamoorthy Neethimani. Students from the Final year, pre-final year, and Second year of the Department of Electrical and Electronics Engineering</p>	<p>4</p>

PIC: EVENT POSTER

participated. The event aims on delving into the latest advancements and future prospects within the wind energy industry. The discussions likely covered technological innovations, such as improved turbine designs, advancements in energy storage related to wind power & grid integration strategies .Approximately 30 students took part in this event over Gmeet. The participants were rewarded with E-certificates as a token of appreciation.

16.

IEEE activities

IEEE St. Joseph’s College of Engineering student chapter in association with IEEE IAS SJCE SB conducted an international webinar series “ERUDITE’23” SEASON 8 on 30-12-2023. The topic of the fourth session was " **secret of research excellence**" presented by Dr.Celestine Iwendi. Students from the Final year, pre-final year, and Second year of the Department of Electrical and Electronics Engineering participated.Certainly, the speaker probably highlighted the importance of networking in the research community, emphasizing collaborations,

PIC: EVENT POSTER

knowledge exchange, and staying connected with peers and experts in the field. Building a strong professional network can contribute significantly to research excellence.. Approximately 35 students took part in this event over Gmeet. The participants were rewarded with E-certificates as a token of appreciation.

- Very bottom: 'PIC: EVENT POSTER'.

The IEEE Power and Energy Society of St. Joseph's College of Engineering conducted a technical event, "MARKMINGLE," from 26-12-2023 to 30-12-2023. Students from the Final year, pre-final year, and Second year of the Department of Electrical and Electronics Engineering participated. The event's goal is to motivate students to undertake projects. In this event, students need to choose one project, analyze it, and then the description, specifications of the project and the materials used to complete the project will be uploaded in the Google Form. Around 10 students participated. The winners were selected based on the satisfaction of the juries and will be rewarded. The participants were rewarded with E-certificates as a token of appreciation.

18.

IEEE activities

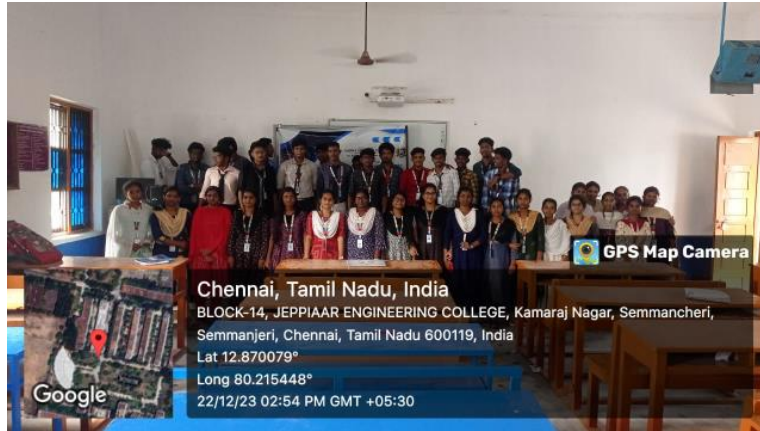

PIC: EVENT POSTER

The **IEEE Power and Energy Society** of St. Joseph's College of Engineering conducted a non-technical event, "**FUNTASTIC**," from December 29, 2023, to December 30, 2023. Students from various colleges participated. The event is all about fun and bringing college students back to their childhood. In this event, college students need to draw their favorite cartoon characters and upload them to the Google Form provided by us. We hope it gives them some nostalgic memories, for sure. Around 10 students participated. The winners were selected based on the satisfaction of the juries and will be rewarded. The participants were rewarded with e-certificates as a token of appreciation.

ISTE activity

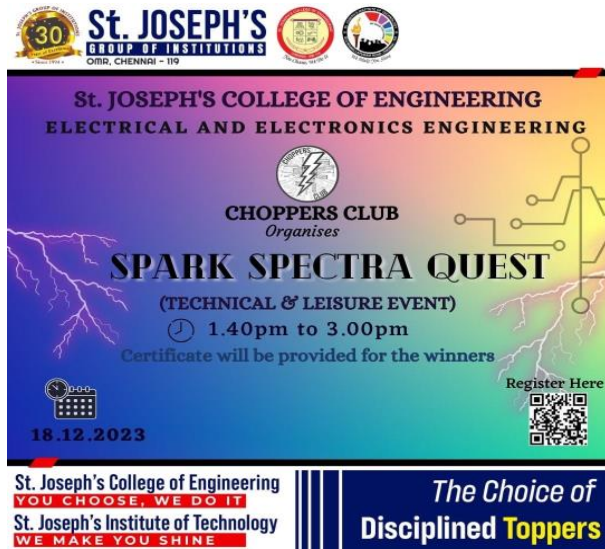

PIC: EVENT PHOTO

ISTE CLUB in association with **IEEE SJCE SB** organized a technical event “ **TECH SPECTRA** “ on 22/12/2023. This exclusive event started at 1:40 PM with all the members of our club. Abiding the famous quote “Talent hits a target no one else can hit; Genius hits a target no one else can see” the event started exploring the hidden talent of our students through this event. Around 30 students were participated in the offline. The rules of the event were explained before the event starts. Participants with higher score were shortlisted for further rounds and finally we declared top three winners. They were honoured with Merit certificates for their outstanding contributions during the event. The event continued with the enthusiasm of our students. The program ended with a photo session.

Club Activity

PIC: EVENT POSTER

St. Joseph's College of Engineering, (Electrical & Electronics Engineering) *Choppers Club* hosted a technical event “**SPARK SPECTRA QUEST**” on **18th DECEMBER 2023**. This event began at 1:40 pm with all of our club members present. The event signalled the start of identifying the latent talents of our students.

<p>21.</p>	<p style="text-align: center;">Club Activity</p>  <p style="text-align: center;"><i>PIC: EVENT POSTER</i></p>	<p>St. Joseph's College of Engineering, (Electrical & Electronics Engineering) SOCIAL AWARENESS CLUB organized a technical event “EMPATHIE ENGAGEMENT” on 20th DECEMBER 2023. This exclusive event started at 9:40AM with all the members of our club. The event was started with full enthusiasm by exploring the hidden talents of the students.</p>	<p style="text-align: center;">4</p>
<p>22.</p>	<p style="text-align: center;">VOCABULARY TEST SERIES</p>	<p>Our department of Electrical and Electronics Engineering, Lingual Clique club has organized word power vocabulary test series for the students. The test series helped the students to improve their communication skills.</p> <p>Test 14 - 01/12/23</p> <p>Test 15 - 15/12/23</p> <p>Test 16 - 22 /12/23</p> <p>Test 17 - 29/12/23</p>	<p style="text-align: center;">4</p>

National level competition

SMART INDIA HACKATHON 2023 FINALIST:

TEAM NAME: Threat Terminus

TEAM MEMBERS: M. Ram Praveen, P. Saran, P. Srinath, B. Santhosh, M. R. Srenithy, T. Sujitha.

MENTOR NAME: Mrs.C.RamaDevi, Mr.A.Sadeesh Kumar

SIH23 was conducted on 19th and 20th of December 2023 at **Noida Institute of Engineering and Technology, Greater Noida, Uttar Pradesh.** It lasts for 36hrs.Our problem

PIC: EVENT PHOTO

statement is “To develop a ransomware readiness assessment tool”. Our solution tool is to assess ransomware readiness of organization. To determine the security levels of an organization, we conduct security assessments. This assessment is intended for an organization's cyber officials. We included IT sector, banking, healthcare, government and public services, and telecom.

Faculty Development Program

Participated in NPTEL-AICTE FDP titled

- 1.Dr.N.Chidambararaj - Smart Grid: Basics to advanced technologies”
- 2.Dr.V.Krishnakumar-Renewable energy based electric vehicle technologies”.
- 3.Mr.R.Elanthirayan- Generative AI and its Applications at DMI
4. Mr.C.Venkatesh Kumar-Emerging trends in Artificial Intelligence and Deep Learning
- 5.Mr.V.Balasubramanian-“Automation in Manufacturing”

25.	<p align="center">Faculty awards and recognitions</p>	<p>1.Mr.R.Sreekanth, Received IEEE India Council Award Outstanding Volunteer of the year on 15 th December 2023 during IEEE India council awards Night held at Hyderabad.</p> <p>2.Dr.M.RameshBabu, Acted as session Chair in 3rd International Conference on Innovative Computing, Intelligent Communication and Smart Electrical Systems (ICES -2023) on the topic Electric Vehicles & Smart Energy System (Track 7) on 15.12.2023.</p> <p>3 Dr.M.RameshBabu,.Reviewed a paper in IEEE Access on 10.12.2023.</p>	5
26.	<p align="center">PLACEMENT DETAILS FOR THE MONTH OF DECEMBER 2023</p>	<p>2020-2024 Batch</p> <p>Total No of students placed = 41 Students</p> <p>Total No of Offers = 46 Offers</p> <p>No of students having single offers = 42</p> <p>No of students having Double offers = 3</p> <p>No of students having Triple offers = 1</p> <p>No of students having Quadruple offers = 0</p>	4

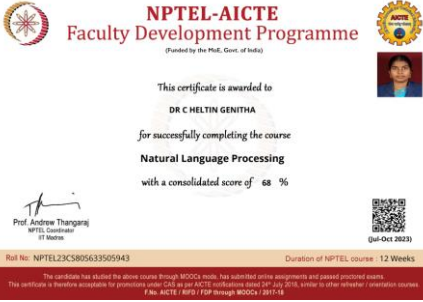

DEPARTMENT OF MBA

<p>FACULTY PUBLICATION / PATENT:</p>	<p>Dr.A.Arun has published a Patent on “Improving Global Financial Modeling Through Big Data Analytics”</p>
<p>FACULTY FDP / STTP / CONFERENCE / SEMINAR PARTICIPATION:</p>  	<p>Dr. A. Ammupriya participated in “ 5 DAYS ONLINE WORKSHOP ON SPSS IN RESEARCH” organized by Star International Foundation for Research and Education on 26.12.2023 to 30.12.2023.</p> <p>Dr.A.Arun recognised for his contribution as 2023 5th International Conference on Soft Computing and its Engineering Applications (icSoftComp2023)vorganized by Smt. Chandaben Mohanbhai Patel Institute of Computer Applications,vCharotar University of Science and Technology (CHARUSAT), Changa, Indiavduring December 07-09, 2023.</p> <p>Dr Subalya S has actively participated in “ 5 DAYS ONLINE WORKSHOP ON SPSS IN RESEARCH ” organized by Star International Foundation for Research and Education on 26.12.2023 to 30.12.2023.</p> <p>Dr. G.NIRMALA has successfully Participated in the Online 5-Days Faculty Development Program on ChatGPT & AI tools for Academician Organized by Department of Logistics & Shipping held on 27th November to 01st December 2023 at ASET COLLEGE OF SCIENCE & TECHNOLOGY, Chennai.</p>

DEPARTMENT OF SCIENCE

Sl. No.	Events	Remarks
1	FDP/Workshop/Conference	<p>1. Dr. N. Punitha attended National webinar on “Advancements in supercapacitor Technology: Energy storage for the futures” conducted by “SR University, Warangal.” On 30.12.2023.</p> <p>2. Dr. S.M. Prakash attended six days International webinar on “Chemistry Beyond Borders - A Global Webinar Series” conducted by “SRM Institute Of Science And Technology Ramapuram Campus, Chennai - 89.” held between 18.12.2023 and 23.12.2023.</p> <p>3. Dr. N. Punitha attended five days International online workshop on “SPSS in Research” conducted by “Star International Foundation for Research and Education, Thiruchengode” held between 26.12.2023 and 30.12.2023.</p>
2	Awards/Prize won by students / Staff	<p>1. Dr. P. Krishnan received Aram - Academic Star Excellence Award from Aram Seyya Virumbu Arakkattalai, Chennai on 17.12.2023</p>
3	Publications(only published) details	<p>1. Dr. A. Arulmozhi published a paper titled “Melting heat effect in MHD flow of maxwell fluid with zero mass flux” in the journal of “Case Studies in Thermal Engineering”. DOI: https://doi.org/10.1016/j.csite.2023.103910”</p> <p>2. Dr. P. Krishnan published a short communication titled “Enhanced electrochemical and thermal stability of CdS:Pb²⁺, Cu²⁺ co-doped nanoparticles on energy storage applications,” in the journal of “Inorganic Chemistry Communications”. DOI: https://doi.org/10.1016/j.inoche.2023.111881</p> <p>3. Dr. K. Jayamoorthy published a paper titled “Synthesis, structure, preliminary antimicrobial and antimalarial studies of 1,1'-(piperazine-1,4-diyl)bis(2-phenylethan-1-one) and its lanthanide, Ce(III), Pr(III), and Nd(III) complexes” in “Journal of Molecular Structure”. DOI: https://doi.org/10.1016/j.molstruc.2023.137287”</p> <p>Patent Publication:</p> <p>1. Dr. G. Sasikumar published a patent titled “Green Technologies for synthesizing nanomaterials, with a focus on metal as well as metal oxide - Application number 202341078493” –in the Indian Patent Journal dated 29.12.2023.</p> <p>Patent Grant:</p> <p>1. Dr. P. Saravanan has awarded with a patent grant titled “Solar and Wind Powered Electric Vehicle- Patent number 397352-001” –on 14.12.2023.</p>

DEPARTMENT OF INFORMATION TECHNOLOGY

Sl. No.	Photographs Captured During Event/Screenshot	Corresponding remarks in regarding the status of activity execution																														
1.	<div style="border: 1px solid black; padding: 5px;"> <p>CNN-based dermoscopic analysis of vascular skin lesions in the prognosis of skin lesion sarcoma based on ensemble learning Cite</p> <p><small>Article type: Research Article</small></p> <p><small>Authors: Muthulakshmi, V^{1*} Hemapriya, N²</small></p> <p><small>Affiliations: [a] Department of Information Technology, St. Joseph's College of Engineering, Chennai, India [b] Data Engineer, Sirius - A CDW Company, Ramanujam IT City, Tharamani, Chennai, India</small></p> <p><small>Correspondence: [*] Correspondence to: Dr. V. Muthulakshmi, Professor, Department of Information Technology, St. Joseph's College of Engineering, Old Mahabalipuram Road, Chennai, India. E-mail: hoditab@stjosephs.ac.in</small></p> <p><small>Abstract: The advent of deep learning techniques has ignited interest in medical image processing. The proposed work in this paper suggests one of the edge technologies in deep learning, which is recommended, based on a Radiomics feature extraction model for the effective detection of Kaposi sarcoma, a vascular skin lesion expression that indicates the most prevalent cancer in AIDS patients. This work investigates the role and impact of medical image fusion on deep feature learning based on ensemble learning in the medical domain. The model is crafted wherein the pre-built ResNet50 (Residual network) and Visual Geometry Group (VGG16) are fine-tuned and an ensemble learning approach is applied. The pre-defined CNN was incrementally regulated to determine the appropriate standards for classification efficiency improvements. Our findings show that layer-by-layer fine-tuning can improve the performance of middle and deep layers. This work would serve the purpose of masking and classification of skin lesion images, primarily sarcoma using an ensemble approach. Our proposed assisted framework could be deployed in assisting radiologists by classifying Kaposi sarcoma as well as other related skin lesion diseases, based on the positive classification findings.</small></p> <p><small>Keywords: Kaposi sarcoma, vascular skin lesions, ensemble learning, ResNet50, VGG16, radiomics</small></p> <p><small>DOI: 10.3233/JIFS-230426</small></p> <p><small>Journal: Journal of Intelligent & Fuzzy Systems, vol. 45, no. 6, pp. 11515-11534, 2023</small></p> <p><small>Published: 02 December 2023</small></p> </div> <div style="border: 1px solid black; padding: 5px; text-align: center; margin-top: 10px;"> <p>Author</p> <p>Dr.Muthulakshmi V Published a paper in Scopus Indexed</p> </div>	<p style="text-align: center;"><u>Student and Staff Paper Publication</u></p> <p>Muthulakshmi, V. and Hemapriya, N. ‘CNN-based Dermoscopic Analysis of Vascular Skin Lesions in the Prognosis of Skin Lesion Sarcoma Based on Ensemble Learning’, Journal of Intelligent & Fuzzy Systems, https://doi.org/10.3233/JIFS-230426, Print ISSN 1064-1246, online ISSN 1875-8967 vol. 45, no. 6, pp. 11515–11534, 02 December 2023(Impact Factor: 2, Indexed in Scopus)</p> <p>Abstract: The advent of deep learning techniques has ignited interest in medical image processing.
