Student's Feedback

The college has obtained feedback on curriculum from students through questionnaire which contains the following major aspects such as Course content & Organization, Interactive participation, learning environment & teaching methods, Learning resource and Quality of delivery and assessment. Totally 140 students gave their feedback on curriculum for the academic year 2022-2023 . 85% of the student's population agreed that the allocation of course content is appropriate in relation to the level of course content is very much appropriate to the programme. Majority of the students strongly agreed that the interaction by teachers with students are more feasible and reliable. Around 86% of the students agreed that they are equipped with necessary teaching methods required for their programme. It is observed that 83% of the students agreed that the provision for learning resource in library was adequate and appropriate with their respective field of specialization areas. The feedback revealed that 83% of them are strongly agreed about the quality of delivery and the internal assessment for the specified programme. Some students are suggested that it would be helpful if the certification course with hands on training can be included as a part of the curriculum.

Feedback analysis report

- From the analysis of the student's feedback, it is very clearly evident that their expectations about the Curriculum is completely addressed.
- ➤ The teaching methodology is upgraded to student centered learning enabling to be skilled apart from learning Subjects better.

TEACHERS FEEDBACK ON CURRICULUM

The College has made it a practice to conduct all faculty meeting, once in the starting of the semester, where the ways and means of enhancing the curriculum, academic discipline, Teaching Learning process and Research and Extension activities are discussed. During such meetings, the individual faculty members express their honest opinion on the curriculum; research and extension activities and the same would be debated and discussed. The appropriate suggestions are put forward to the respective councils for implementations. The faculty members get representations in the Board of Studies, Department Advisory Committee and Academic Council, where the staff members are getting ample opportunities to give feedback, on both curriculum and teaching learning process.

Based on the feedback obtained, various industrial visits, guest lectures, value added courses and student's workshops are organized to fill the gap in the curriculum.

Feedback analysis report:

- ➤ It is clearly evident from the teachers' feedback that the framework of the curriculum is highly appreciated and innovations adopted in teaching and learning process is deep rooted.
- ➤ Additional training is required to students in order to update themselves to cope with the technological advancements.
- > Expert lectures, internships, courses and training have to be part of the curriculum to keep them updated as skilled graduates.
